

Respect the Lake You Love

Common Sense Lake Etiquette:

Lake Etiquette respectfully suggests an attitude and approach to enjoying our mutually shared lake and the surrounding environment. We hope this will be prominently posted in your Soyers Lake residence for all property owners, guests and tenants:

We strive to preserve Soyers Lake in its natural state to protect its many natural treasures and wildlife by maintaining our **shoreline** in as natural a condition as possible. We do our best to keep pesticides, fertilizers and all cleansers out of the lake in order to protect the natural water quality of our lake.

We strive to maintain our **septic systems** in accordance with the local Health Unit guidelines which recommend having our septics pumped every 3 – 5 years.

We strive to respect all our **neighbours' enjoyment** and property boundaries in our use of sound systems, lighting, motorized vehicles, watercraft, wake, machinery, and pets.
